

BRAINSPOTTING APPLIED TO SPORTS AND PERFORMING ARTS

9 & 10 November 2019 in BARCELONA

Also available on line through video conference

This two day course is aimed for Brainspotting therapists who work with or who would like to work with athletes and performing artists (musicians, dancers, actors, acrobats...)

Course Contents:

- Understand the base of the Peak Performance Flow state and how to use Brainspotting to enable your clients to develop it.
- Learn what causes interference to this state, it's effect on fine and gross motor control, how it creates a propensity to injury and how to use Brainspotting to release these causes.
- Acquire the process for developing in your clients the 4 most key Peak Performance states.

Complete program: <http://ruthchilescoach.com/training-brainspotting-sports-performing-arts>
