

From May 17 to 21, 2024

Integrative Brainspotting

ADVANCED LEARNING EXPERIENCE

The BSP intensive workshop was designed by David Grand as a way to provide the therapist an immersion in advanced BSP techniques, having the possibility to experience how BSP is applied integratively in the office, while the group experiences a process of healing.

13 participants

13 tutorized therapy sessions

- Registration is limited to 13 participants, so 13 therapy sessions are offered, one per participant, each one can be a therapist and a client once.
- Mario Salvador sits next to the student who acts as a therapist and teaches guiding the therapist in the process of inquiry, attunement and framing. Each session is analyzed extensively to emphasize the learning

Personal skills

The Intensive is a Master Class to develop the skills as an advanced Brainspotting therapist with personalized advice.
